Fertilization therapy

In cases of fertilization problems a very effective treatment, for women and men.

- Regulates the chemistry of the woman body in case of difficulties on pregnancy.
- Regulates the chemistry of the man body in case of difficulties in giving rise to pregnancy.

The therapy is also meant for pregnant women, with the intention of leading the pregnancy in a healthy and optimum way. It prevents the regular upsets of pregnancy, as liquid retention, gain of weight, varicose veins, hemorrhoids, low or high tension, etc. The therapy prepares the body for labor as natural as possible and it is very healthy for the baby, who with this stimulation gets ready for his/her birth in better conditions.

The therapy is effective in:

- Avoiding common conditions/upsets during pregnancy.
 - Maintain an optimum health state during pregnancy.
 - Recover physical and emotional state after labor.
- **Quality Fertility** is formed by Lone Sorensen and offers professional advice and follows up of each treatment performed around the world by Lone Sorensen herself.
